Mobile Unit for Fresno County Children and Families

Request for Proposals

ABOUT FIRST 5 FRESNO COUNTY

At First 5 Fresno County, we know that children thrive when their families thrive. We envision a future where all children and their families are healthy, loved and nurtured. We run after this vision by partnering with our community to create a seamless system of quality, accessible services that support the wellbeing of every child and family. The First 5 Fresno County Commission (the Commission) was created in 1998 when voters passed Proposition 10, which added a 50-cent sales tax to every pack of cigarettes or tobacco product sold in California. The State of California collects the money and distributes it to each county based on birthrate. The Commission is responsible for developing a strategic plan to guide local funding decisions that are consistent with the purpose of Proposition 10, which is to promote, support and improve the early development of children from the prenatal stage to five years of age.

INTENT

First 5 Fresno County (F5FC) is seeking proposals from entities with the capacity to take on ownership, use, manage, and maximize F5FC's Airstream trailer (Mobile Unit), previously branded as the Breastfeeding Friendly (BFF) Express, to support and promote the optimal health and wellbeing of Fresno County children and families in new ways.

BACKGROUND

In 2010, F5FC purchased and refurbished a used Airstream trailer to create the Breastfeeding Friendly (BFF) Express, a breastfeeding friendly mobile unit as part of the Breastfeeding Friendly initiative - a larger community campaign to raise awareness and support for breastfeeding as the healthiest start for babies and to normalize support for lactating women and their families at home, at work, and during community events. Over the years, community support and awareness of the benefits of breastfeeding have increased in Fresno County. Hospitals continue to implement policies around breastfeeding support to attain the Baby Friendly Hospital designation, more expansive lactation accommodation laws have been signed into law, and breastfeeding friendly spaces have been permanently established at prominent places like the Fresno Yosemite Airport, Fresno City Hall, Fresno Chaffee Zoo, and the Fresno Fairgrounds. Over time, staff capacity combined with decreased demand for the Mobile Unit at large, outdoor community events have kept the trailer in storage for longer periods of time.

With this Request for Proposals (RFP) procurement, the goal is to elicit new, innovative uses for the Mobile Unit so that it can continue to support the health and wellbeing of Fresno County's children and families.

TRAILER SPECIFICATIONS AND ASSOCIATED COSTS

The Mobile Unit is a 27 foot. customized Airstream trailer that currently provides a comfortable, private space for breastfeeding mothers (up to 4) to nurse their babies while attending large outdoor community events. It also accommodates families with baby-changing stations; one of them conveniently located separate from the private breastfeeding section. When in use, the Mobile Unit requires a 30 ft. by 20 ft. space with access to nearby electrical power to operate the included lighting and air conditioning units. If access to electrical power is not available, the Mobile Unit can be powered using its attached generator. The Mobile

Unit is currently outfitted with one television with a built-in DVD player, four gliding/rocking chairs, two privacy curtains, a sink, and several storage cabinets – all of which will remain with the Mobile Unit upon ownership change. Currently, the Mobile Unit is wrapped in a decal covering approximately 50% of the exterior (see included images at the end of this document) which will be removed prior to ownership change. Specific dimensions and mechanical features are included in the table below:

The average cost to maintain the Mobile Unit is estimated at approximately \$7,640 per year depending upon the new owner’s capacity and needs.

² Current tow and set-up services contracted with Fortney Towing.

³ Estimated average costs for 1 event per month at \$550 per event (\$550 x 12 months = \$6,600 a year).

FUNDING AND CONTRACT PERIOD

Through this RFP, the ownership (title) of the Mobile Unit will be transferred to the awarded applicant. F5FC anticipates awarding title of the Mobile Unit effective March 1, 2022 subject to a transfer agreement. As part of the transfer agreement, the awarded applicant will be contractually obligated to use the Mobile Unit for two years. F5FC will require the awarded applicant to make a \$10,000 good-faith deposit to be refunded back to the agency at the end of the two-year contract term. Should the awardee not use the Mobile Unit as proposed and/or sells the Mobile Unit before the two-year agreement terms, F5FC would permanently keep the deposit. F5FC makes no representations as to the value or conditions of the trailer – it is up to the awarded entity to determine the value and to inspect the vehicle. Additionally, F5FC will not transfer title to the Mobile Unit without the awarded applicant executing the transfer agreement, which, among other things, will require the awarded agency to fully indemnify F5FC during the term of the Agreement.

ELIGIBILITY

Nonprofit public benefit 501(c)(3) organizations, local education agencies, and public/governmental agencies providing services to families with young children are encouraged to submit a proposal. If the applicant is a past or current F5FC funded partner their contract(s) must be in good standing.

The selected entity must demonstrate the capacity to utilize, store, manage, and maximize the use of the Mobile Unit for the health and wellbeing of Fresno County children and their families. In addition, a proposing entity must have at least three (3) years of demonstrated expertise in providing services to children ages 0 to 5 years old, their families and/or the individuals who serve them.
